

Nine Elms Wayfinding & Signs for Work Sites.

Updated 24 July 2015

Nine Elms Wayfinding & Signs for Work Sites.

This document includes ordering information for:

SITE GATE NUMBERING Supplied as Large, for vehicle entrances (hoarding or post-mounted) or Medium, for pedestrian entrances.

LIGHTBOXES Supplied with Nine Elms Local Area Map. Site survey may be required.

WORKS SIGNS For Heras Fencing.

LOCAL SIGNS Lockable Poster Frames, A-Frames and White Boards.

TEMPLATES Templates and specifications for local works signs and posters are available. Templates are supplied in Adobe Illustrator format together with the Nine Elms brand font.

DELIVERY AND INSTALLATION will also be arranged with your allocated site contact.

HOW TO ORDER (see page 16)

1. Fill out the ordering form(s) as required.
2. Email form to us.
3. Email any Text or Logo content — such as for Heras Fencing Works Signs.
4. We will contact you about site survey and installation — if either required.
5. You will receive a PDF proof, an Order number and Invoice (including installation) for approval.
6. Pay electronically, quoting our order number as reference.
7. Installation or Delivery will be arranged with your allocated contact.

Signs require correct information from the Arup Construction Manager: nineelms@arup.com

Signs and individual sign costs on following pages. Costs include artworking.

Installation & Delivery

Half Day 2 Men £600

Full Day 2 Men £900

Delivery £125 per delivery

Prices do not include site surveys or VAT.

Gate Number Signs for Hoarding.

Large (each hexagon 1M wide) for vehicle gates.

Medium (each hexagon 500mm wide) for pedestrian gates.

Dibond. Reflective. Supplied in 2 parts:

1 hexagon with Nine Elms logo, plus 3 hexagons with Site Gate number and directional arrow.

Fixed on site to hoarding. The configuration of logo, number and arrow tailored to each gate.

The Site Gate colour (Blue, Pink, Purple) is predetermined by Site Number, as this relates directly to the main Site Construction Map.

Signs can also be supplied as single, double or triple hexagons, or in almost any bespoke combination, depending on requirement and location — please email for cost details.

cost:

L4Hex £685

L3Hex £595

M4Hex £385

M3Hex £355

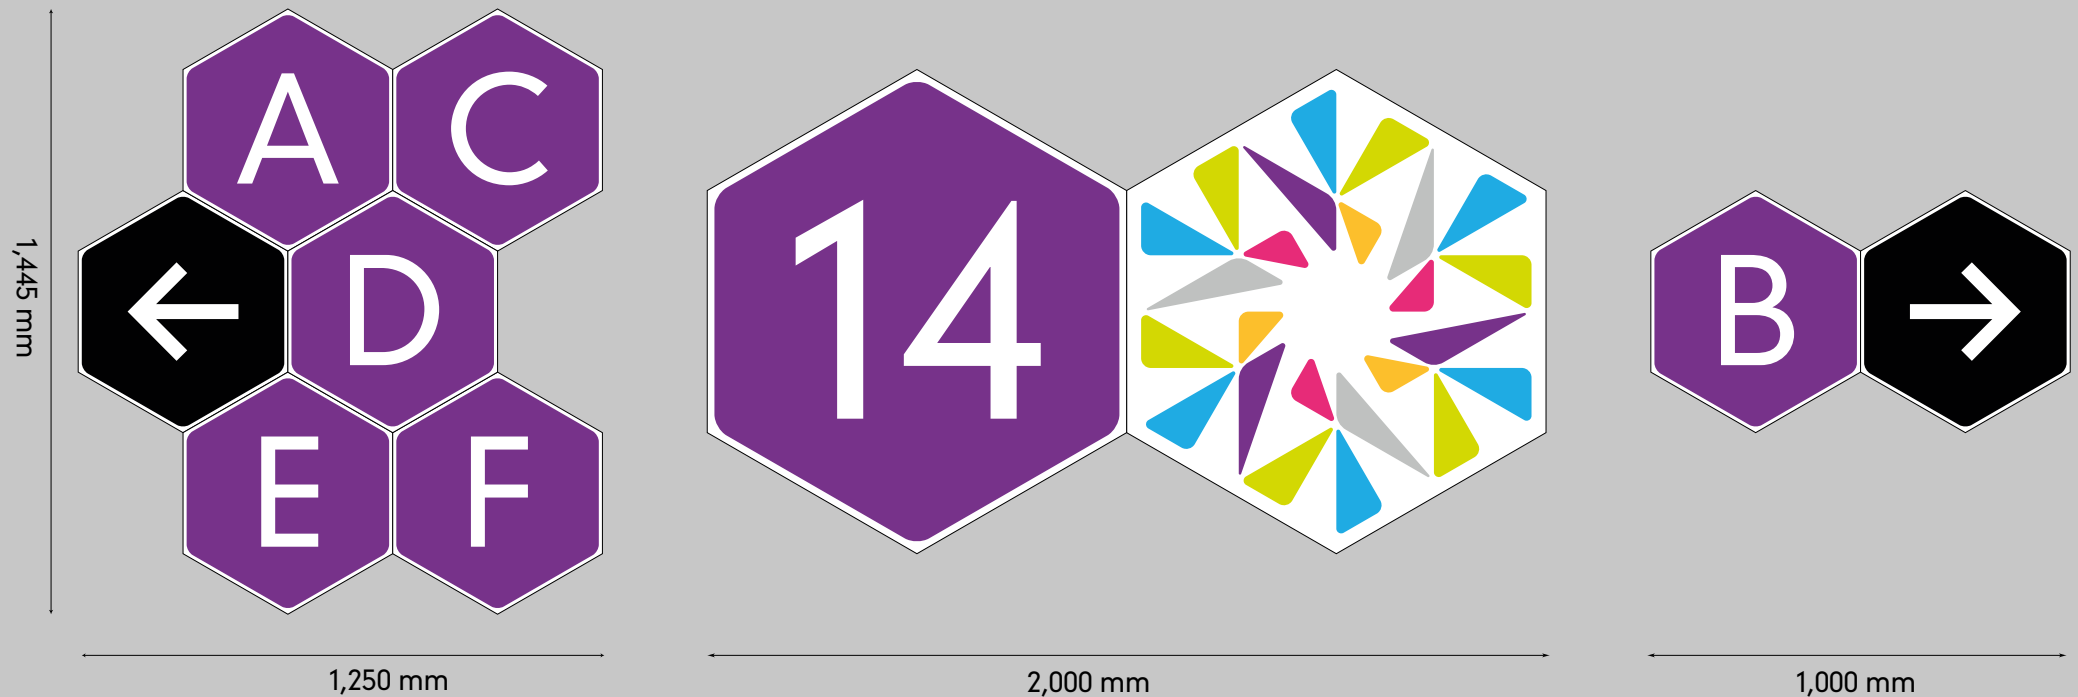

Large = 1M

Medium =
500mm

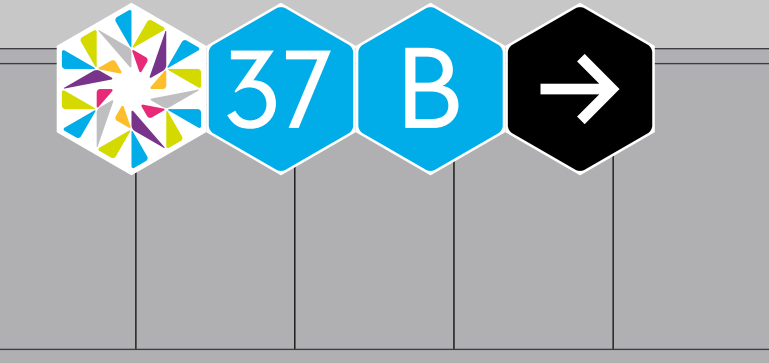

Gate Number Signs for Hoarding.

Large or Medium reflective Gate Signs can also be supplied as single, double or triple hexagons, or in almost any bespoke combination, depending on requirement and location — please email to discuss.

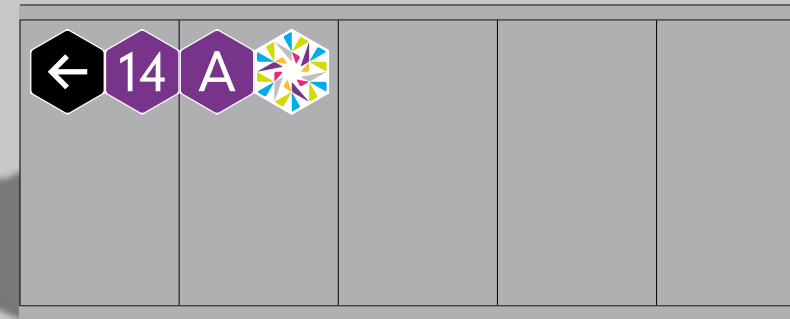

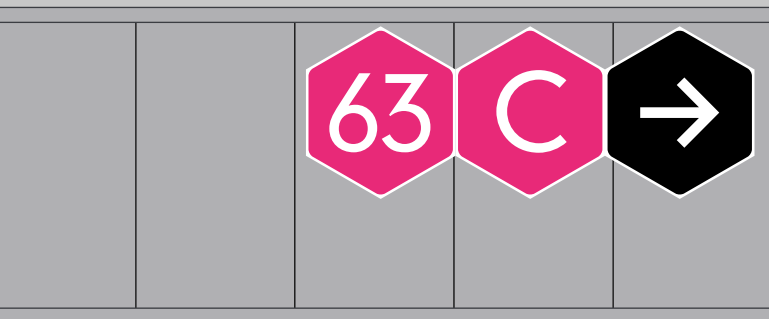

Positioning of Gate Number Signs for Hoarding.

Hoarding heights vary across all of the different Nine Elms development sites. However, you should ideally mount the gate numbering hexagons at the top of the hoarding.

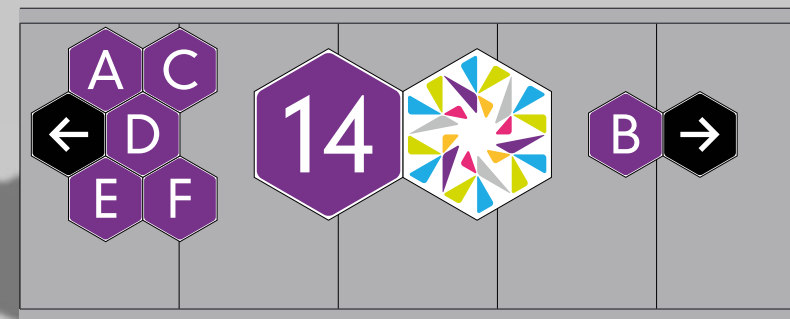

Large Hexagons (1M wide) should preferably be mounted protruding above the top edge as shown above.

Where this is not possible, then it should be close to the top.

Medium Hexagons (500mm wide) should be mounted close to the top.

Mixed groupings should be mounted in the most logical/clearest manner for the group and the location of the sign, but keeping them "in line" so that they read across.

Post-mounted Gate Number Signs.

3mm Dibond. Reflective.

4 × 1M wide hexagons in cluster

Supplied in 1 piece.

With metal post and ground fixings.

Can also be supplied as three hexagon version without Nine Elms logo.

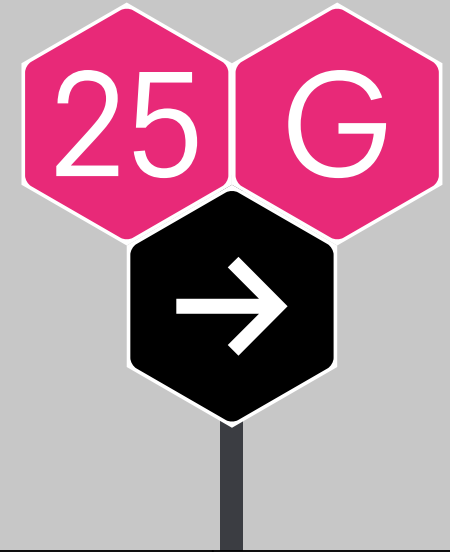

cost:

P4Hex £2,095

P3Hex £2,005

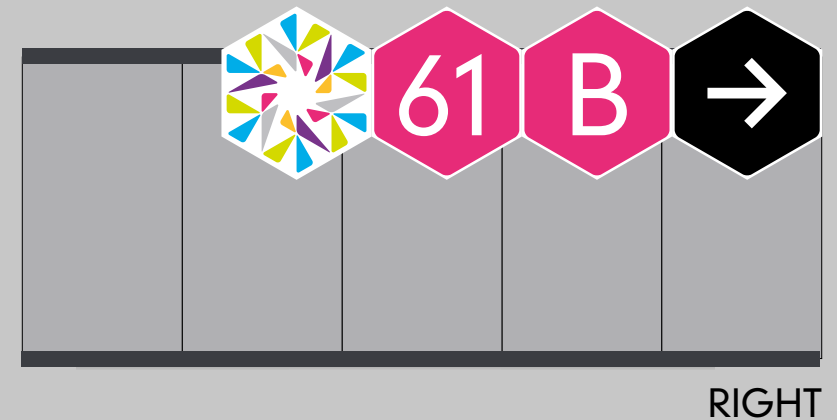

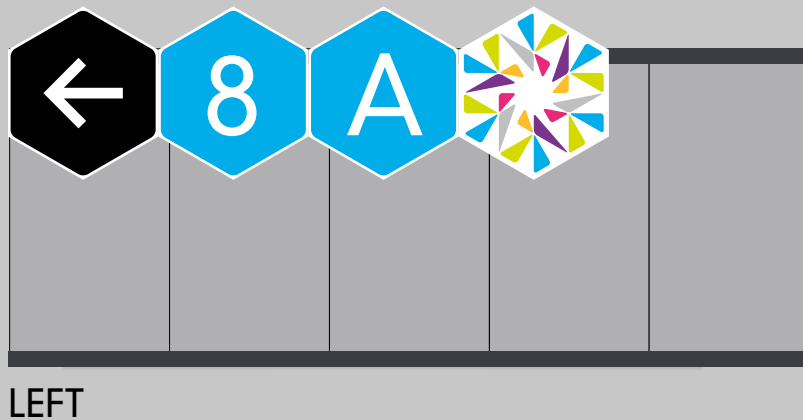

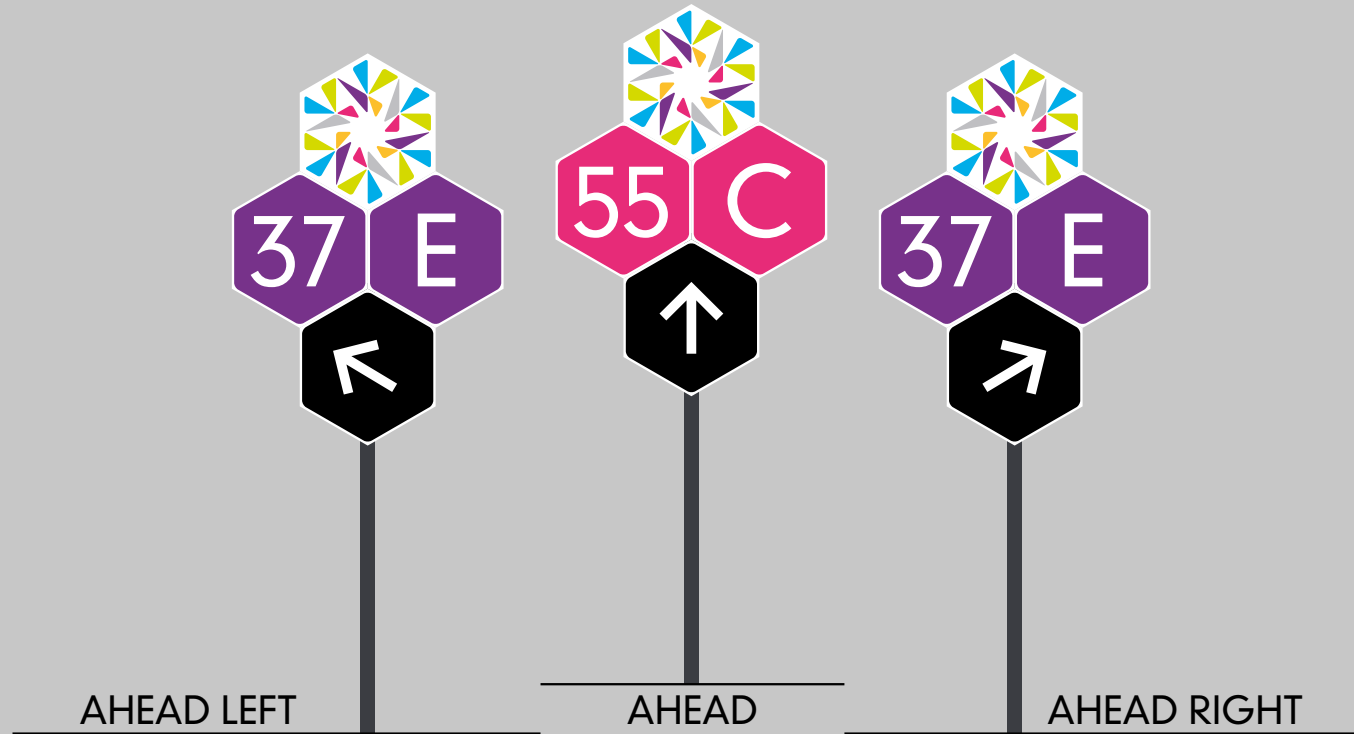

Concreting £800-£1,000

Subject to site survey

Gate Sign Colour & Direction

The Site Gate sign colour (Blue, Pink, Purple) is predetermined by the site number and location on the main map. The direction arrow can be supplied in 5 directions for both kinds of sign. Please specify direction when ordering.

NOTE:

This PDF covers only Nine Elms branded signage.

Standard free-standing highway regulation-governed signage (“on the highway white-on-red”), including works signs, stop, caution, warning, regulatory, directional, temporary, new features, etc. — are not included in this document.

These should be acquired from your usual highway regulatory sign suppliers.
